

DIECAST COLLECTIBLES FOR THE CAR CRAZY

Troy Phagan
JackWagon R/C
& Hobbies

PRE-PRODUCTION SAMPLE - NOT FINAL
SUBJECT TO LICENSEE'S FINAL APPROVAL

Greenlight offers an amazing array of licensed vehicles from TV & movies to motorsports.

I grew up in a car family, and my scale model and die-cast collections kept the car-crazy fires burning as I matured. At the most recent NRHSA Table Top Expo, I came across Greenlight Collectibles and marveled at their products. It was like being a kid again! I was so excited, I connected with one of their several distributors and ordered products for my store.

The vehicles are diecast metal with robust plastic parts and crisp details that add authenticity. The vehicles are officially licensed and are top-notch products for automotive enthusiasts.

Adding Greenlight Collectibles diecast to our store has

connected with customers who didn't have the budget for RC products but are still looking for a vehicle-themed purchase. The Kings of Crunch series is an easy choice for those wanting a monster truck gift without the RC price point. Another popular seller has been the fire and rescue theme vehicles. Who doesn't like a red fire truck? Greenlight Collectibles offers the vehicles and quality details that any discriminating collector or auto enthusiast will value. HM

[EDITOR'S NOTE: Welcome Troy Phagan, owner of Jackwagon R/C & Hobbies in Greeley, Colorado, and as one of the new product reviewers for Hobby Merchandiser magazine.]
